To become a Fully Integrated, Socially Responsible, Contextually Relevant, and Value-Based Management Institute of National Reckoning by meeting the growing and emerging needs of industry and business through contemporary innovative management Teaching, Training, Research and Consulting.

Vision

The objectives of the Institute are as follows:
1. To develop managers, leaders and entrepreneurs with vision and values.
2. To ensure relevance of curriculum for the industry.
3. To continuously upgrade and develop intellectual capital.
4. To coin interactive pedagogy.
5. To achieve excellence through teamwork.
6. To provide diversified corporate exposure in the form of corporate induction programmes, summer training, consultancy, innovative assignment, and live projects.
7. To groom students as value-based business leaders through a structured Executive Leadership Programme and modules to improve inter-personal skills and personality development.

The house of Jaipurias, headed by Dr. Rajaram Jaipuria, a doyen of textile industry, is a recognized name in the Indian industrial arena. Their flagship establishment, Ginni Filaments and its associated organizations are the acknowledged leaders in the field of textile production and exports. Their success in this field is largely due to their endeavor to evolve and adopt latest technological and managerial innovations. The philosophy of staying with the latest developments in the industrial field is manifested in the running of Jaipuria Group of Educational Institutions at Ghaziabad.

Seth Anandram Jaipuria Education Society runs various reputed schools and colleges in the country. A degree college named "Seth Anandram Jaipuria College" was founded in 1945 at Kolkata. It is flourishing as a famous center of excellence. Its opening ceremony was done by Pt. Jawaharlal Nehru, who later became the Prime Minister of India.

Seth Anandram Jaipuria School, Kanpur, was started in 1974. Smt. Indira Gandhi, Prime Minister of India, had laid the foundation stone, while Dr. Fakhruddin Ali Ahmed, President of India, did the inauguration. It is a leading school of northern India and has achieved excellent results in the board examinations.

Jaipuria Ghaziabad PGDM is all about developing thought leaders who possess the ability to critically think and act in a responsible way so that they can achieve the visions of their organizations. The PGDM curriculum is, therefore, specifically designed to reflect the evolving realities of the professional world and the corporate needs and requirements of organizations. The curriculum also reflects the evolving dimensions of business and management practices and applications so that they add knowledge, skills, and competencies to the participants, facilitating their personal contribution to the future success of their organizations. They offer tremendous learning opportunities to the participants and help them reinvent themselves by discovering their potentials.

Established by the noted philanthropist industrialist, Dr. Rajaram Jaipuriain 2008, Jaipuria Institute of Management Studies is an autonomous Institute approved by AICTE, Government of India. With a sprawling campus spread on Delhi- Meerut link road within NCR, it is fast growing as an Integrated Business School with a mandate to contribute in building knowledge capital of the country by providing world class, value based and proactive professionals.

The Post Graduate Diploma in Management (PGDM), a two year full time programme approved by AICTE, has been designed in such a way that the student gets a right blend of strong theoretical foundations, analytical skills and their applications to the functional areas of management.

At Jaipuria Ghaziabad we facilitate a culture of experiential learning and practical grooming of students for the aim of achieving perfection. Our dedication to learning and our personal commitment to students are what makes our teaching stand out. The institute wishes to inculcate values of education, excellence and concern for others in the students by imbibing egalitarian values. We also take the time, both inside and outside the classroom, to personalize our students’ experiences. The results would be close knit network of alumni that would play a fundamental role in our educational mission.

The Institute has a curriculum that is strengthened through the close bonding of theory with practice i.e. an interface of education with industry. Our students’ learning is enriched in the management functions as students undertake real time projects in consent with industry professionals and go through a structured Executive Leadership Programme. This is strengthened by regular interaction of students with industry leaders and entrepreneurs, who visit the Institute on a regular basis to share their experiences, insight, and wisdom.
Dear Recruiter,

It is with great sense of satisfaction that I introduce to you the fifth graduating class of 2014 of Jaipuria Institute of Management Studies Post-graduate Programme in Management. This batch brings to you new zeal and energy and I present to you a passionate and committed group of budding managers from diverse backgrounds who are ready to take new challenges and prove themselves.

Management education in India today is going through a new phase of change because the corporate world needs leaders and not managers; leaders who are capable of aiming high and then achieving the vision of their organizations by aligning and motivating people. This requires more comprehensive and focused management education that integrates skills with insight and knowledge with wisdom. Keeping in view this reality Jaipuria Indirapuram has redesigned its curriculum to achieve this purpose by providing a unique learning environment that stimulates thinking and imagination of the students.

The current batch showcases this change and reinforces the belief that at Jaipuria Ghaziabad our endeavor is to bring in high quality management education with innovative learning experiences. Today’s professional world is full of challenges and the new batch has been prepared to use new management concepts as well as the evolving management practices in order to face new challenges.

I am confident that this group of committed professionals will be an asset to the organizations they join by playing a dominant role in helping them achieve their business goals and build a brand for themselves. I highly recommend them for your kind consideration.

Prof M Ashraf Rizvi
Director
Jaipuria Institute of Management Studies, Ghaziabad

“Nothing endures but Change”
Our teaching methodology aims to equip students on the following aspects that are essential to their future role:

- **Case based teaching**: Develop students’ ability to present and analyze specific themes. Simple knowledge acquisition is not enough. It is essential that students learn to analyze and evaluate what they have learned, in order to “mature” their thought processes and improve practical skills.

- **Lively Class Discussions**: Classroom Teaching consists of regular lectures, supplemented by audio visual aids, seminars, field work conferences, group discussion, guidance, counselling and a very lively discussion in the classroom with active participation of the students etc.

- **Live Projects**: Students are given regular assignments, both individually and in groups, so that students comprehend and understand theoretical concepts as well as imbibe the practice of working in teams; these assignments relate to ‘Real Life Situations,’ so that there is continuous development of analytical and logical abilities of the students. Our students have been taking up live projects with companies like Tata Steels, Onicra Credit Rating Agency, Homex India, Bharti AIRTEL, Vodafone, Sony India.

- **Specialization Projects**: Every student, at the end of fifth trimester, has to submit one specialization project on each elective chosen by him or her.

- **Dissertation**: The student will become eligible for the award of diploma only after successfully completing and submitting the Dissertation project and viva-voce.

- **Sectoral Projects**: To give more flexibility of choice to our students we have introduced innovative SECTORAL SPECIALIZATIONS, which includes a set of different electives that are custom fit for different industries. The qualifications will strengthen the CV and will be extremely valuable in terms of placement and career choices. It is a blend of functional and sectoral orientation, giving opportunity to the would-be corporates to widen their horizons.
• **Business Communication**: To strengthen the students’ communication skills including their reading, writing, listening, and speaking skills, students are given special training to bring them to a desired standard as per corporate requirements.

• **Personality Development Programme**: To sensitize students on the importance of Soft Skills, strengthen self perception and outlook through positive thinking, build "never-say-die" attitude, emotional Intelligence for sustainable success in managerial role; Social Intelligence for making connection with the outer world; Cross Cultural Intelligence (CCI) for building rapport with people from different backgrounds. Help them to learn Team Playing Skills, Motivation, Image Building, Personal Branding, Adaptability, Negotiation Skills, Critical Thinking and Conflict Resolution Skills.

• **Employability Enhancement Programme**: The Institute aims to enhance the employability of students by training them on various skills & knowledge that the industry requires. To help students become focused about their goals and objectives; to do reality check and accordingly set attainable goals, Aspiration Management and right career mapping. Build their Resume, help them become aware of different types of selection process like GD, PI etc. Assist the students in accelerating the learning and value addition to their personality, confidence and enthusiasm to face day to day challenges effectively.

• **Aptitude and Intelligence Quotient**: Enhance analytical, logical and numerical abilities of students and prepare them for General Aptitude Tests. Emphasis on Industry Analysis, Business & Market Research, Global Economic scenario for overall development of the student. Build Common Sense Quotient and general awareness for a successful career growth in future.

• **Imparting Values & Ethics**: Jaipuria has evolved a philosophy of education, which emphasizes holistic development of its students. Our pedagogy concentrates on individual development by imparting social values and human ethics to make the students understand lifetime skills and developing them as meaningful and productive human beings. In spirit with the same, we created an opportunity for all the Jaipurians to be blessed by Swami Nikhilanada Saraswati ji, Head Chinmaya Mission New Delhi.

• **Business Presentation Skills**: Acknowledging the importance of interpersonal skills and verbal communications and integral quality of all successful professionals, the institute emphasizes the development of presentation skills of every student using audio-visual aids to convey ideas and plans and communicate effectively on a one to one basis, in small groups or to address larger audience and forums.
Life at JAIPURIA
INDIRAPURAM
Building on a Strong Foundation
The PGDM curriculum consists of two components: the core programme in the first year and the elective programme in the second year. The core programme consists of 24 courses spread across three terms while the elective programme in second year consists of similar number of courses across functional disciplines as per the interests of the students and the corporate requirements.
