Dear Parent(s),

\textit{‘Exhilarating days are here again! It’s time for Summer Vacation and fun filled activities’}.

Children are reservoirs of latent aptitude which needs to be explored and channelized in diverse ways. We at Jaipuria feel that it is very important to fire their imagination and foster an outlook that helps them explore, discover and rediscover. Children should be encouraged to develop intellectually and physically. Summer Vacation is the best and fruitful time for learning and creativity. It is the time when you can connect with your child in many ways.

The Holiday Homework is so designed that it would not only enhance achievements of your wards but also help to augment interaction. It would edify your children to work independently and would improve their basic academic skills, such as reading and writing and would help them develop personal skills and time management.
