**Maths Around Us**

You cannot reach to items kept at some height in the kitchen, but your mother can reach them. She can do this because she is taller than you. Your father can lift many things easily that you find difficult to lift. He is stronger than you. Similarly, observe and list a few things in pair which are shorter—longer, lighter—heavier, or smaller—bigger around you.
Look at the picture below and follow the instructions as given.

1. Colour the tallest flag **green** and the shortest flag **red**.
2. Circle the child nearest to the bucket.
3. Circle the smallest tyre.
4. Cross (×) the thickest rope and tick (✓) the thinnest rope.
5. Fill in the blanks.
   a. The bucket is _________ (inside/on) the sand.
   b. The dog is _________ (inside/outside) the water.
   c. The flag is at the _________ (top/bottom) of the sand castle.
