Hello Summer!
Let's hone our skills and learn by doing...

Class - II

Dear Parents,

We honour the genuine and heartwarming responses received from you in the form of reviews and feedbacks. This completely describes how you worked as a team with us. We expect the same support in future as well.

Let us together help our children attain new skills and utilize their Summer time constructively.

Homework encompasses a whole variety of activities which pupils are asked to do outside lessons, either on their own or with their parents. The school believes that homework based on life skills makes the greatest contribution to learning, as it gives us the opportunity to pursue all those activities that we enjoy but never found enough time to indulge in.

Yes! A holiday is supposed to be a break from studies, explanations and completing daily tasks. So, we are going to motivate them to take up certain responsibilities in a fun way so that they enjoy their holidays with the family at home.

Sorting activities always appeal to children. It is to sort, classify and label the group of objects according to its use, colour, shape etc. It refers to organizing things into groups based on similar characteristics. For example:

- Help them organize their closet. They can use pouches or shoe boxes to segregate their socks, napkins and other items and label them for convenience.
- Similarly story books can be sorted on the basis of genre, author or favourites.

You can device or design various chores of daily routine to inculcate the skill of classification and sorting as it is an important science and mathematical skill.

Parents are advised not to go out to purchase any material, children can do their work with whatever is available at home. Holiday homework is given not to assess them but it is an effort to keep them engaged in some constructive work, make them responsible and develop few traits.

Looking forward to see you soon.

HAPPY HOLIDAYS! STAY HOME! STAY SAFE!

Dear Children,

Holidays are round the corner. They bring delight and laughter on the faces of children.

But, this year our vacation would be somewhat different. Due to the Covid-19, we shall have to take a few precautions, like staying at home, wearing a mask, washing hands frequently, eating healthy food and so on.

Being at home doesn't mean we can't be creative and constructive! You can spend quality time with your grandparents and parents. Learn something from them. Show care and concern for your loved ones. Capture the precious moments. It is the time of the year when we can do things which we are unable to do. Take care of the environment. Go ahead create wonderful memories!

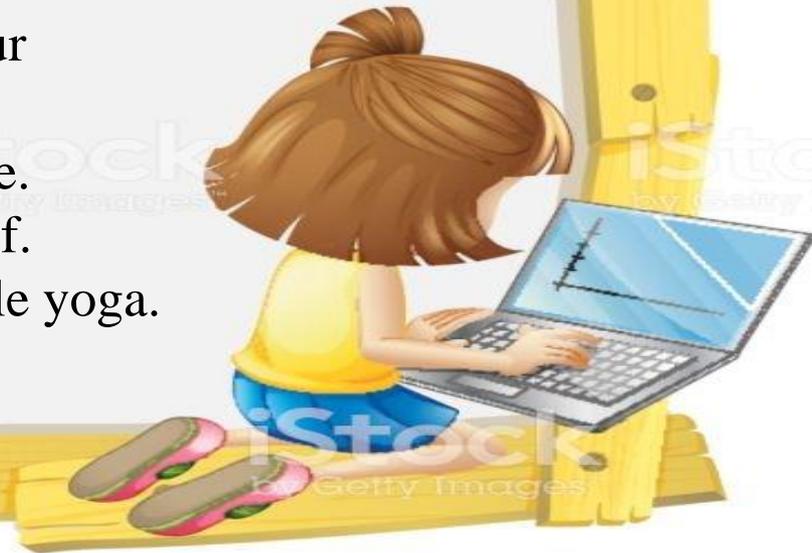

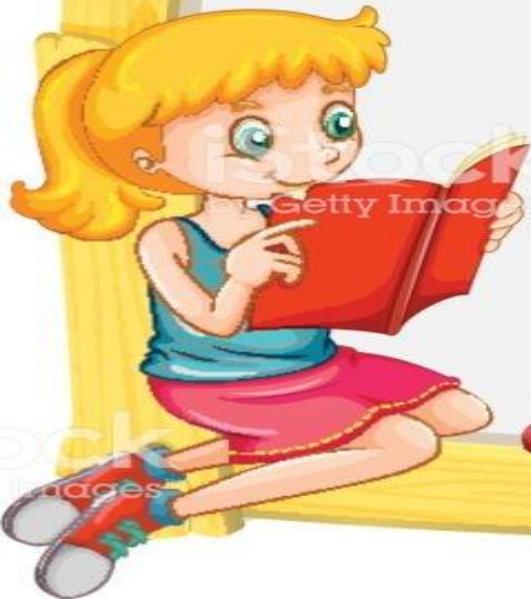

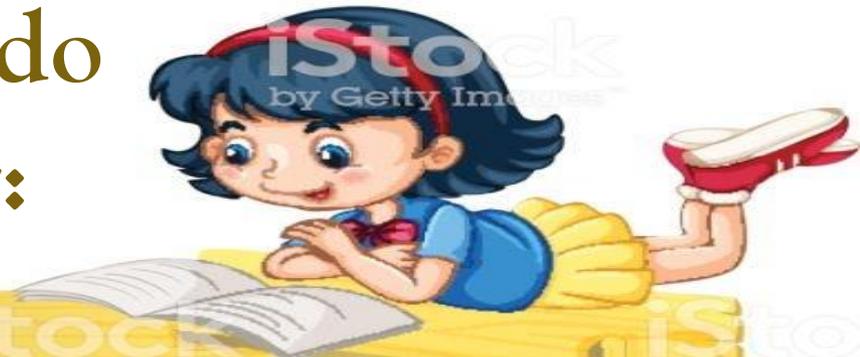

Keeping all this in mind, even the school has made learning a joyful experience. It has designed special tasks for you to be completed during vacation.

So, GET, SET n GO.....
Little homework, easy to be done,
Lesser studies and lots of fun,
Playing , talking and watching cartoons,
Fun continues till we meet soon!!!

Fun things to do this summer:

1. Clean your room.

Summer Vacation is that period of time for the children when they experience their most beautiful moments of the year.

These moments include acts of kindness, empathy, happiness and so on

We are sure that you and your parents must also be doing some act of benevolence. So why not shield them in a box to be remembered later.

ACTIVITY:

1. Take a shoebox and decorate it. Label it as MEMORY BOX.
2. Make small chits from your old notebooks.
3. Tell your family members to note down in that chit any act of kindness, empathy, affection they have done.
